PROFESSIONAL SUMMARY

IT Operations graduate (RRC Polytech) with hands-on experience in Active Directory administration, identity and access management, and technical support within enterprise environments. Proficient in user provisioning, security group management, GPOs, Exchange administration, and PIM workflows. Strong documentation, troubleshooting, and ITIL-aware service delivery skills. Looking to contribute to IAM and access management operations in a hybrid IT environment.

TECHNICAL SKILLS

- **Active Directory & IAM:** User/group provisioning, security groups, GPOs, account unlocks, password resets, PIM (Privileged Identity Management), MFA management, role-based access control
- **Exchange / Messaging:** Shared mailboxes, distribution groups, permissions management, Exchange admin center, mail-enabled security groups
- **Scripting & Automation:** PowerShell (basic — user management cmdlets, AD automation), Python (data handling, scripting)
- **ITSM & Ticketing:** Zendesk and FreshService, incident management, request fulfillment, escalation management, SLA adherence, ITIL process awareness, knowledge base documentation
- **Systems & Platforms:** Windows Server, Windows 10/11, macOS, Linux, Remote Desktop Services, Microsoft Teams, Five9/CXone
- **Documentation:** SOPs, knowledge base articles, audit trails, troubleshooting guides, process workflows

PROFESSIONAL EXPERIENCE

IT Support Specialist - End-User Support

IntouchCX – Winnipeg, MB

October 2025 — Present

- Manage user access across enterprise systems — troubleshoot login issues, MFA challenges, authentication errors, and account lockouts
- Process identity and access management requests through Zendesk following defined security and compliance protocols
- Document all incidents systematically, maintaining detailed audit trails and knowledge base articles
- Identify recurring access issues, flag patterns to Tier 2 teams, and contribute to procedural improvements
- Handle sensitive financial data under strict regulatory and security controls
- Maintain 90%+ Quality Assurance scores through consistent adherence to process standards

IT Support Specialist (Intern), Bison Transport, Winnipeg, MB

May 2024 — May 2025

- Managed user identity lifecycle in Active Directory — provisioning, security groups, GPOs, password resets, account unlocks
- Administered Exchange environment — created and maintained shared mailboxes, distribution groups, and mail-enabled security groups
- Managed PIM workflows including MFA resets and privileged access management for enterprise applications

- Provided technical support for Windows-based applications, VoIP (Five9/CXone), and Microsoft Teams — documented root causes and resolution steps
- Created and maintained Standard Operating Procedures, contributing to a 5-10% reduction in repeat incidents
- Collaborated with Business Analysts and IT team members to identify recurring issues and recommend process improvements
- Maintained audit-ready documentation for all support activities in accordance with internal ITIL-informed standards

EDUCATION

IT Operations, Red River College Polytechnic, Winnipeg, MB

August 2023 — April 2025

Relevant coursework:

- Network security and infrastructure fundamentals
- System monitoring and administration
- Cloud computing fundamentals (AWS)
- IT documentation and operational workflows
- Hardware and software troubleshooting

CERTIFICATIONS & CONTINUOUS LEARNING

- **AWS Cloud Practitioner (CLF-C02)** — Currently studying
- **CS50P: Introduction to Programming with Python** (Harvard)
- **CompTIA A+** — Foundational knowledge through self-study

PROJECTS

Active Directory Home Lab:

- Configured Windows Server domain controller from scratch — created
- OU structure, user/group policies, GPO configuration, and domain
- join for client workstations
